Message

Dear Governor Cooper

I applaud your support of clean air and water for NC residents. The folks at Dominion (and other partners) are promoting a message that NC needs the Atlantic Coast Pipeline to provide electricity based on demand. NC is better than this. We have some of the best solar resources and can work to meet our needs without increasing our consumption of fossil fuels, which causes undue harm to the communities living in the regions of West Virginia (and Pennsylvania) that are being fracked extensively to obtain the natural gas.

Thank you for promoting a message that looks to our future rather than chaining us to the past.
